

Durable Dependable Tools Expands Operations with New Facility

LA CROSSE, WISCONSIN, USA (3 September 2024) – Durable Dependable Tools (www.durabledependabletools.com), a leading manufacturer of high-quality steel rule dies, is proud to announce the acquisition and relocation into a newly purchased property in La Crosse, WI. This relocation marks a significant milestone for the company, enabling them to enhance their manufacturing capabilities and better serve their customers.

The new facility offers numerous advantages, including increased production capacity, streamlined logistics and the ability to accommodate future growth. With this expansion, Durable Dependable Tools is positioned to meet the growing demand for their products while maintaining the high standards of quality and reliability that their customers have come to expect.

“I have been waiting for this opportunity, and here it is. We have an open-door policy and invite all to come and talk or have your tool made here. We will work directly with you to ensure you are getting what you ask for (or to serve your customer’s needs). That is our main goal.” – Bryan Devine, Die Making Team Leader

About Durable Dependable Tools

Durable Dependable Tools is a leading manufacturer of custom steel rule, embossed and thermal dies, known for their commitment to quality, innovation and customer satisfaction. With a wide range of capabilities, allowing them to create dies designed for various applications, Durable Dependable Tools serves industries such as manufacturing, medical, construction and maintenance. Their dies are engineered to withstand the toughest conditions, delivering reliable performance and longevity.
